**Job Description:** Laboratory Interns will be responsible for assisting technicians in the operation of the WildPine Ecological Laboratory. Responsibilities include, but are not limited to, preparing water bottles, collecting water samples, free diving to monitor oysters and seagrass, assisting with water quality analysis, participating in outreach events, prepare shells for use in research projects. Laboratory Interns are also encouraged to create, implement, and evaluate their own project during their time at the Laboratory with the assistance of Laboratory staff.

**Training:** Hands-on training in NELAC Certified Laboratory procedures.

**Qualifications:** 18+ years of age, valid Florida's Drivers License with a clear driving record and background check are requirements. Intern should have a general interest in environmental science, marine science, biology, chemistry and water resources.
